Sanjay Jain Chilly
Managing Director

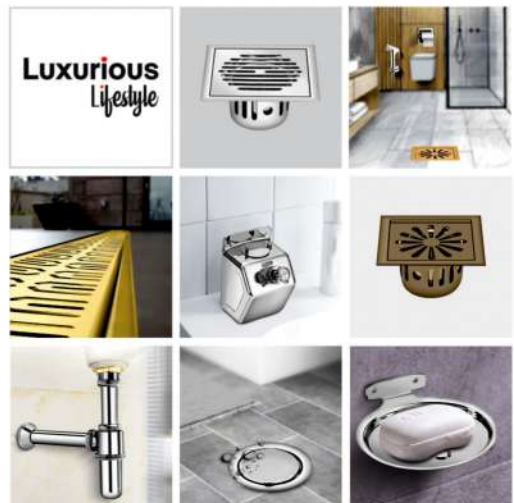

Dear customers, there is nothing more important than the customer who ultimately will use the product which takes so long to create, manufacture, passed on to supply chain, delivered for distribution, changes hands at retail and finally reaches the consumer.

At **SANJAY CHILLY** we live for the moment when the customer will buy the product and will smile at finding true value for the money they spent. For us, the urge for improvement and the rigorous development of innovation is a solidly established and resolutely pursued company principle. Since our foundation in 2007 we've invested tirelessly in new ideas, new technologies and surprising new solutions- always with our values and our customer needs firmly in view. We can't help always being a little bit different.

Our core competence is producing high-quality drainage products and bathing accessories with design aspirations to match. We are continually strengthening our design, innovation and manufacturing capabilities and put together integrated bathroom solutions for our customers. These are a fusion of our decades of experience in the sanitary sector with outstanding support from our distribution, retail and customer base.

Read this brochure and find out more about **SANJAY CHILLY's** contribution as a supplier of exclusive bathroom and drainage solutions.

The Making of a

Raw Material

Only the high grade 304 Stainless steel is procured, Tested and then allowed On the shop floor.

Processing

Once inside the factory premises the steel is stacked and treated for final cutting.

Cutting

Cutting of the steel is done with specially commissioned Presses for the final production.

Pressing

At the state of the art presses the cut sheets are moulded to the various shapes.

Beading

The process of beading is crucial for the products because it imparts them with safe rounded corners.

Lancer/ Grinding

Grinding is the process which takes away the blemishes on the product surface & makes it smooth & user friendly.

Perfect Product

Buffing

Buffing is finishing process for shining a workpiece's surface using an abrasive & a work wheel or a leather strap.

Polishing

Polishing is finishing process for smoothing a workpiece's surface using an abrasive & a work wheel or a leather strap.

Checking & Packing

Before the products are packed in protective cover bag and later into boxes they are thoroughly checked & if found wanting are sent back to shop floor.

Shipping

SANJAY CHILLY is committed to meeting supply chain deadlines & to make it possible we take extra care to dispatch deliveries faster & safe.

- Geriatric Suitability: One of the most dominant features of this folding chair is the comfort and ease it provides for the elderly; one of the risky places for an aged person is a wet bath floor, common but quite unsafe, and this foldable shower bench sure provides a lot of stability in such cases.
- Medical Purposes: Other than the above mentioned probable usage, This foldable stool is extremely handy in case of requiring extra care like :
 - ★ People with a knee problem.
 - ★ Pregnant Ladies.
 - ★ People having trouble to sit on the floor.
